This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

It will be noticed that the assessed valuation for 1904 is almost $31,000,000 more than in 1901 and that the levy for general expenses of the state has been cut down four-tenths of a mill.

Wolf bounty certificates in the amount of $23,354 have been paid from July 11, 1902, to November 1, 1904. Of this amount $19,177.50 was paid for certificates issued under the 1903 law and $3,176 for certificates issued under the law of 1897. This leaves outstanding registered certificates of the 1903 issue to the amount of $22,590 and of the 1897 issue about $1,550.

Wolf bounty paid since 1897 law went into effect is about $97,000 and this leaves a total of about $23,000 worth of certificates which are registered, outstanding.

During the biennial period ending July 1, 1904, there has been collected by counties for tax the amount of $27,653.11 to the credit of the wolf bounty fund. It is expected that by the 1st of March, 1905, there will be enough money in the fund to make a call and take up nearly all of the outstanding certificates at this time.

Tax collections to the credit of the general fund for the two years ending July 1, 1904, amount to $1,046,872.85. This is a gain of $149,786 over the biennial period ending July 1, 1902.

The cash balance in the general fund July 1, 1902..... $ 70,109.45
The cash balance in the general fund July 1, 1904..... 289,769.42

During the past biennial period $684,464.57 has been invested in bonds by the permanent fund of the common schools, and farm loans to the amount of $70,650.00 have been made. See page 262 for list.

The balance in the permanent school fund July 1, 1902, was $237,331.38 while July 1, 1904, it was $153,651.57. This is accounted for by the fact that during the two years ending July 1, 1902, only $336,300 was invested in bonds by this fund while in the late biennial period $684,464.57 was so invested. This shows that there has been a large increase in this fund.

Sale of land to the credit of the permanent school fund from July 1, 1902, to July 1, 1904, is $434,202.33.
